Araujo Estate's organic, biodynamic Cabs are so sought after, you can't even buy them from the vineyard. A tiny production is released each year to wine stores, restaurants and wine-list members (sorry, that list is closed). If you can't find it on the shelves at K&L, look for it at such restaurants as Gary Danko (800 North Point St., 415-749-2060).
